

Student Exchange Programme

1 - 12 February 2024

This is a call for application for student exchange programme with the Indian Institute of Science, Bengaluru, India, for Japanese nationals, to foster cross-cultural learning. Partial financial support is available for selected students.

Student Benefits

- Social awareness and socio-economic understanding through field trips.
- Exposure to India's cultural heritage through visits to heritage sites.
- Policy discussions on science, technology, and innovation with policy makers in India.

Requirements

1. Open to students 21 years and above.
2. Interested students can apply using the google link given below on the poster.
3. Last Date to Apply: **15th October 2023**
4. There is no prerequisite for a background in policy, however, a desire to learn is required.

Assistance

- IISc will cover the cost of accommodation, field visits and airport commute.
- India Japan Laboratory (IJL) of Keio University may provide partial assistance for international travel.
- Students are responsible for their international travel, visa fees, food and other expenses.
